Professional Summary

Frontend Developer with hands-on experience in developing and enhancing responsive web interfaces, business dashboards, and API-integrated applications. Skilled in HTML5, CSS3, JavaScript, React.js, and Material UI (MUI), with experience in reusable UI components, form validation, data tables, and responsive layouts. Focused on writing maintainable code, improving user experience, troubleshooting interface issues, and delivering reliable frontend solutions in a collaborative development environment.

Technical Skills

Frontend Development: HTML5, CSS3, JavaScript, React.js, Material UI (MUI)

API and Integration: REST API Integration, JSON, Form Validation

Development Tools: Git, GitHub, Visual Studio Code

Additional Technologies: PHP, Python, WordPress, Shopify, NumPy, Pandas

Professional Experience

Ordinet Solutions Pvt. Ltd. **February 2026 – Present**
Frontend Developer Intern

- Develop and maintain responsive user interfaces for business applications, dashboards, and web-based workflows.
- Build and enhance reusable UI components, forms, tables, filters, and layouts using React.js and Material UI.
- Integrate REST APIs to display dynamic data and support frontend workflows, including request handling and response processing.
- Implement form validation, improve data presentation, and refine user interactions to provide a consistent experience.
- Troubleshoot UI and functional issues, improve responsive layouts, and maintain consistency across screen sizes.
- Collaborate with team members to implement requirements, test changes, and enhance existing features while preserving established application functionality.

Selected Projects

NexGen Dashboard
Contributed to a business dashboard featuring analytics, order management workflows, data tables, filters, and API-integrated interfaces. Enhanced reusable components and improved usability across dashboard modules.

MIS Dashboard
Contributed to dashboard UI enhancements, focusing on structured data presentation, consistent layouts, and intuitive navigation for business users.

MHPC-CMD Dashboard
Contributed to the development of a Command and Monitoring Dashboard for the Maharashtra Public Service Commission (MHPC), focusing on dashboard UI design, data visualization, interactive map components, status indicators, and responsive layouts to improve data visibility and monitoring usability.

Vistaar
Worked on frontend interface development and UI refinements, with an emphasis on responsive layouts, consistent styling, and improved usability.

Iraaya Wellness Website iraaya.co
Contributed to website UI improvements, responsive product sections, navigation, and consistent product card layouts across different screen sizes.

Education

Master of Computer Applications (MCA) **2024**
Sant Gadge Baba Amravati University, Maharashtra

Bachelor of Science (B.Sc.) in Computer Science **2022**
Sant Gadge Baba Amravati University, Maharashtra
CGPA: 8.7/10

Higher Secondary Certificate (12th)
Percentage: 71.08%

Certifications

Google Data Analytics

Core Strengths

Problem-Solving • Attention to Detail • Adaptability • Quick Learning • Team Collaboration
