UI Frameworks and Libraries: Material UI (MUI), Bootstrap, Responsive Web Design
State Management: Redux, Context API
API Integration: RESTful APIs, JSON, API Integration, Form Validation
Data Visualization: Chart.js, ApexCharts
Database: SQL, Database Handling
Tools and Platforms: Git, GitHub, Visual Studio Code, WordPress, Shopify
Other Technologies: Python, PHP, NumPy, Pandas

Professional Experience

Ordinet Solutions Pvt. Ltd. **February 2026 – Present**

Frontend Developer Intern

- Develop and maintain responsive web application interfaces using React.js, JavaScript, HTML, CSS, and Material UI.
- Build reusable frontend components and implement user-friendly layouts for business applications and dashboards.
- Integrate REST APIs to fetch, update, and display dynamic application data.
- Work on dashboard modules, data tables, forms, filters, and interactive UI components.
- Implement form validations, manage application states, and handle frontend functionality.
- Identify and resolve UI issues, improve responsiveness, and maintain consistency across application screens.
- Collaborate with team members to implement requirements, enhance existing features, and maintain application quality.

Projects

NexGen Dashboard

- Developed and maintained responsive business dashboard interfaces using React.js and Material UI.
- Worked on analytics modules to display business insights, revenue details, order statistics, and performance metrics.
- Implemented order management features, including order creation, editing, payment tracking, and status management.
- Integrated REST APIs to fetch, update, and display dynamic application data.
- Developed reusable components, data tables, filters, forms, and validation functionalities.
- Improved dashboard usability, responsive layouts, and frontend performance.

MIS Dashboard

- Developed and enhanced management information system interfaces for business data monitoring and reporting.
- Implemented structured dashboard layouts, data tables, navigation components, and interactive UI elements.
- Worked on presenting business information through organized data views and dashboard components.
- Integrated API-driven data and improved frontend data handling.
- Enhanced responsive design, UI consistency, and overall application usability.

MHPC-CMD Dashboard

- Contributed to the development of a Command and Monitoring Dashboard for Maharashtra Public Service Commission.
- Developed interactive dashboard interfaces with monitoring cards, status indicators, and structured information displays.

- Implemented interactive map components, location markers, popup details, and visual monitoring elements.
- Worked on responsive dashboard layouts and improved the presentation of monitoring information.
- Enhanced UI components, navigation, and visual consistency to provide a user-friendly monitoring experience.

Vistaar AI

- Contributed to frontend development and enhancement of responsive web application interfaces.
- Developed and refined website sections, reusable UI components, and page layouts.
- Implemented consistent styling, navigation elements, and responsive design improvements.
- Worked on UI debugging, layout adjustments, and cross-screen compatibility.
- Improved the overall visual presentation and usability of the application.

Iraaya Wellness Website iraaya.co

- Contributed to frontend development and enhancement of the wellness website.
- Improved product sections, product cards, navigation, and website layouts.
- Worked on responsive website components for desktop, tablet, and mobile screens.
- Enhanced UI consistency, product presentation, and user navigation experience.
- Implemented frontend refinements to improve website appearance and usability.

Education

Master of Computer Applications (MCA) **2024**
Sant Gadge Baba Amravati University, Maharashtra

Bachelor of Science (B.Sc.) in Computer Science **2022**
Sant Gadge Baba Amravati University, Maharashtra
CGPA: 8.7/10

Higher Secondary Certificate (12th)
Percentage: 71.08%

Certifications

- AWS Cloud Practitioner
- Google Data Analytics

Core Strengths

Problem-Solving, Attention to Detail, Adaptability, Quick Learning, Team Collaboration
